Te kus en te keur

Verlede jaar se *Woonwakoopgids* was die eerste van sy soort en die omvattendste gids van woonwaens* wat in Suid-Afrika vervaardig word. Die landskap verander egter só vinnig, dat daar in vanjaar se gids meer as 40 nuwe modelle te sien is.

Die plaaslike woonwavervaardigers laat beslis nie gras onder hulle voete groei nie en afgesien van die nuwe modelle, is van die waens ook opgedateer. Met hierdie gids is jou vertoonvenster op wat tans in die land beskikbaar is, so op datum as kan kom.

Die pryse in die gids geld vir daardie spesifieke wa se standaardmodel. Hou egter ook in gedagte dat wabouers modelle nie ewe volledig toerus nie. Gebruik dit dus as 'n aanduiding van die minimumprys, voor enige ekstras bykom. Die pryse sluit wel BTW in, maar skakel die vervaardiger as jy jeuk vir een van sy waens want met die onvoorspelbare wisselkoers, brandstofpryse en rentekoerse, word pryse deurentyd hersien.

Volgende jaar maak ons weer so.

Leon
leon.botha@media24.com

* Slegs plaaslikegeboude produksiemodelle en nie pasgemaakte modelle nie.

Spoilt for choice

Last year's *Caravan Buyers' Guide* was the first of its kind and the most comprehensive guide to caravans* manufactured in South Africa. However, the landscape changes so rapidly that there are over 40 new models to be seen in this year's guide.

Local caravan manufacturers certainly don't let the grass grow under their feet and, besides the new models, there have been updates to existing caravans too. With this guide, your shop window on what is currently available in the country is as up to date as it can get.

The prices in the guide apply to the standard model of each specific caravan. However, keep in mind that manufacturers do not equip all models to the same degree. Use it as an indication of the minimum price, before any extras are added. The prices do include VAT but contact the manufacturer if you're itching for one of their caravans as with the unpredictable exchange rates, fuel prices and interest rates, prices are continually revised.

See you again next year.

Leon
leon.botha@media24.com

* Only locally built production models and not custom-made models.

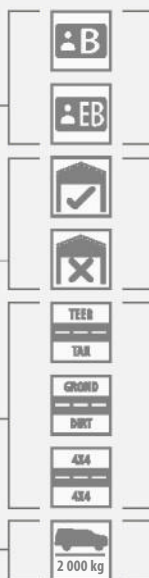

IKOONSLEUTEL / LEGEND

Die rybewys wat jy moet hê om die wa te sleep. Kode B is 'n gewone rybewys en jy mag 'n wa met 'n BVM van hoogstens 750 kg sleep. Kode EB is 'n sleeprybewys.

Pas die wa in 'n standaardmotorhuis? Motorhuise verskil – veral die hoogte van die deuropening. Ons gebruik dus 'n maksimumhoogte van 2,1 m, 'n breedte van 2,4 m en 'n lengte van 6 m.

Die padtoestande waarvoor die wa gebou is.

Die minimum-tarragewig van die sleepvoertuig (vir 'n ongeremde wa met 'n BVM van 750 kg of minder moet die sleepvoertuig se tarra dubbel die BVM van die wa wees).

The driver's licence needed to tow. Code B is a standard licence, and you may tow a trailer with a GVM up to 750 kg. Code EB is a towing licence for heavier caravans.

Does the caravan fit into a standard garage? Garages differ, especially the height of the door opening. We confine the measurement to a maximum height of 2,1 m, a width of 2,4 m and up to 6 m in length.

The road conditions the caravan is built for.

The minimum tare weight of the towing vehicle. (For an unbraked caravan with a GVM of 750 kg or less, the tare of the towing vehicle must be twice the GVM of the caravan.)
