LETTER FROM SAM

Greetings, my fellow crocheters,

It is I, Sam Eagle. Few know of my fondness for handicrafts, but I love crochet almost as much as I love this great nation I call home. And even though my fellow Americans didn't invent this beloved art form, I believe in my heart that it is distinctly patriotic. If Betsy Ross could have crocheted the first flag for our young country, I think she would have. Because what is more American than joining the many through strategy, and by hooking loops in a continuous chain until they create a perfect union. That is why I am so delighted that you hold in your hands this very book. Because now, The Muppets can be associated with fine, upstanding skills such as the half-double crochet stitch, the magic ring, and... *the picot*. Not any of their usual nonsense like doing cannonballs into pools of tapioca pudding or tap-dancing in oatmeal.

Whatever country you call home, and whatever Muppet you feel best personifies you, I hope you find great enjoyment in your crochet. And should your answers to those questions be the United States and Sam Eagle, then you have my additional gratitude.

Best of luck in your crochet endeavors,

SAM
EAGLE

INTRODUCTION

The Muppets were a staple in my household growing up. I have always loved the quirky, hilarious, and lovable cast of characters. Whether being featured in their own original stories or bringing classic works like Robert Louis Stevenson's *Treasure Island* to life, The Muppets have never failed to delight. From my first introduction, I was inspired by the design and craftsmanship that so clearly went into the creation of these iconic characters. The vibrant color palette and the delightful use of texture and scale set my creative mind buzzing.

My grandma taught me to knit when I was ten—yarn has since been a steady part of my life right alongside The Muppets. At seventeen, I taught myself to crochet, but it wasn't until I discovered amigurumi that I was well and truly hooked (pun absolutely intended). The word *amigurumi* is a Japanese portmanteau of *ami* ("to knit or crochet") and *nuigurumi* ("stuffed doll/toy"). My creative mind, still buzzing, went to work designing and making them right away. I haven't stopped since.

Combining these passions to turn The Muppets into amigurumi has been both a dream come true and a challenge. The patterns in this book are perfect for seasoned crocheters or advanced beginners who are looking for a challenge.

Now it's time to grab some yarn and a hook, put on your favorite Muppets movie or show, and bring these beloved characters to life!

THE STARS OF THE SHOW!

Kermit the Frog!

Kermit may be the world's most famous amphibian, but he has never let his international success go to his head or his flippers. Under his iconic green exterior, Kermit is still a lovable every-frog, a

tadpole from a small-town swamp who got lucky and made it big in showbiz. Kermit's main role is as leader of The Muppets, trying to keep the show going and the craziness under control. It's not an easy job, but he loves everything about it. The Muppets are his colleagues, his friends, his family.

FUN FACT Kermit made his first on-screen appearance on a local television series back in 1955. Back then, instead of being green, this frog was seen in black and white!

Miss Piggy!

Miss Piggy is the ultimate diva, a fashion icon, a star of stage, screen, and all media known and unknown in perpetuity throughout the universe. She is invincible, indomitable, unstoppable, and yet very vulnerable—a side she only ever shows to her closest companions. After all, she's had to fight (sometimes literally) for everything she's

achieved in life. And she intends to keep it all—the fame, the acclaim, and especially the jewelry. Miss Piggy adores the good things in life, especially chocolate.

FUN FACT Miss Piggy's over-the-top eye for fashion is legendary, and she's rarely seen without her signature pearls and gloves.

Fozzie Bear!

Fozzie Bear is the world's funniest—and only—stand-up comedy bear. From his beat-up hat to the trademark “Wocka-Wocka!” that punctuates his

punchlines, Fozzie is comic through and through. His jokes aren't great... okay, they aren't usually even good, but they are always delivered with passion, gusto, and the ever-dashed hope that this time they'll get a laugh. Fozzie is perseverance personified. Despite incessant heckling from Statler and Waldorf, he never gives up... and never lets down The Muppets.

FUN FACT Fozzie has attributed some of his best jokes to a comedy writer named Gags Beasley, the author of the famous "Banana Sketch."

Animal!

Animal is the drummer with The Electric Mayhem, and the absolute embodiment of a completely unleashed, totally out-of-control rock 'n' roll wild man. His passions in life are drums, food, and his friends! And he pursues them all with reckless abandon. He is closest to Sgt. Floyd Pepper, who he looks at as a mentor and companion after Floyd took him in when he was just a baby. Animal has a heart of gold and a child-like sweetness. He is mostly nonverbal, using short phrases like "Drums! Drums!" or "Louder! Louder!"

FUN FACT When Animal is holding his bunny, he is totally calm. No one knows why. But everyone is very grateful.

Dr. Bunsen Honeydew and Beaker!

Together, Bunsen and Beaker are the founders, head researchers and, respectively, chief tester and lead guinea pig of Muppet Labs. They truly

believe that they are on the verge of a great scientific discovery.

Dr. Bunsen Honeydew wants to achieve scientific breakthroughs that will change the world. Beaker, his beleaguered assistant, simply wants to make it through another day without too much suffering. Bunsen and Beaker are virtually inseparable and have a deep respect and affection for each other, even though Bunsen frequently demonstrates this by accidentally blowing up Beaker.

Rows 2-14. Sc in each st around [13 rnds of 16 st]

Fasten off the yarn and weave in the ends.

ASSEMBLY

1. Stitch the Hair Cap to the top of the Head.

2. Cut a piece of red felt in the same shape as the Mouth. Stitch the bottom edge of the Mouth one rnd up from the color change at the neck. Place the piece of red felt on the Head and trim the edges so that when the Mouth is folded up it covers the felt; hot glue the felt in place.

3. Stitch the top edge of the Nose around four rnds up from the top of the Mouth so that when the Nose is at a 45° angle it touches the top of the Mouth. Stitch about 2 rnds down from the top of the Nose on either side to secure the Nose in place.

4. Stitch the Eyes right next to each other, directly above the Nose. When attaching the second Eye, stitch the Eyes together at the center.

5. Attach the Tie to the center front of the shirt; make a horizontal stitch two sc wide and repeat several times to build up the “knot” at the top of the Tie and weave in the ends.

6. Place the Collar around the neck, covering the color change, and stitch the top edge down; weave in the ends.

8. Pull the Lab Coat on, fold the lapels away from the center front of the Body and close the front of the Coat so the left side overlaps the right side. Use a strand of Sage Heather to sew the front of the Coat closed, from the bottom up, stopping when a few st of the Tie are still visible underneath; weave in the ends.

9. Use a strand of Toffee around 24 in. long to embroider the top part of the Shoes. Insert your needle toward the back of the foot below the color change and out the other side and pull the yarn so it is flat on the top of the foot. (Don't pull so tight that it makes the foot pucker.) Repeat about four times to build up the detail on the top of the foot.

10. Cut a large number of strands of Orange yarn around 4 in. long. Using a Lark's Head knot, attach the strands to the Hair Cap. (When attaching the strands be sure that your hook is always pointed to the top of the Head when first inserted; this will ensure that the knot is hidden) Attach the strands to each st of the outside rnd of the Hair Cap, and to around every other st on the top. Once the Hair Cap is covered, use a pet brush or comb to brush out the yarn strands until they resemble hair. Trim the hair to the desired length (around .5 in.-.75 in.) Gently twist each individual section of hair, to separate it into spikes.

4. Grab the Bow Tie and weave in the shorter tail, weave the longer tail to the center of the Bow Tie. Make a vertical stitch 2 rnds tall at the top center of the shirt, catching the middle of the Tie. Make multiple passes in the same direction to build up the "knot" of the Bow Tie.

5. Attach the top of the Legs to the bottom of the Body so that they meet in the center; make sure the feet are facing forward.

6. Pull the Tuxedo Jacket on, fold the Plum lapels away from the center front of the Body and close the front of the Jacket so the left side overlaps the right side. Use a strand of Plum yarn to sew the Purple portion of the front closed, from the bottom up, forming two Plum "buttons," and embroider 2 horizontal lines about 3 st wide, 4 rows up from the bottom;

weave in the ends. (Optional: Use Plum yarn to tack the lapels and collar down on the Jacket.)

Rowlf the Dog!

Rowlf is not only the funniest piano-playing dog, but he's also the punniest. He's never met a pun he doesn't love and use... over and over, no bones about it. A down-to-earth and lovable hound, Rowlf never shies away from a wisecrack even when he's the target. He studied piano under Madame Poochini at Ruff Barker's

Obedience and Music School. Onstage, he's a lively, quick-witted, honky-tonk piano-playing songster. Backstage he's a wise advice-giver, a keen observer of life who likes to take it easy.

FUN FACT Rowlf was the first member of The Muppets to make it big in show business, booking regular commercials and late-night television appearances in the 1960s.

Sam Eagle!

Sam has a fondness for the spotlight, usually to talk about patriotism, decency, and America. Despite his disdain for The Muppets' frivolous nonsense and inspired silliness, Sam sticks around for every single moment of it. Kermit understands the need to have Sam around, and actually tries to address Sam's concerns. That's

because Sam sets a high moral standard for The Muppets, which The Muppets never ever come close to achieving.

FUN FACT Sam Eagle's hobbies include only the most patriotic handicrafts: needlepoint, quilting, and crochet.

ASSEMBLY

1. Cut several 3 in. strands of Black yarn. Using a Lark's Head knot, attach the strands to the eyebrow. (When attaching the strands be sure that your hook is always pointed to the bottom of the Head when first inserted. This will ensure that the knot is hidden.) Use a pet brush or comb to brush out the fibers of the yarn and trim to the desired length: around .25-.5 in.

2. Stuff the Beak, making sure to get stuffing all the way to the tip, then attach to the center of the face with the tip pointed down, spanning rnds 10-16, right beneath the eyes.

3. Stitch the flat side of the Lower Lip in a curve underneath the Beak, so that the top of the Lip is touching the underside of the Beak.

4. Attach the top edge of the Wings on either side of the Body. Angle them so they point slightly forward and with the top corner about 4 or 5 rnds down from the bottom of the Lower Lip.

5. Line up the Legs on either side of the Body, with the 3-taloned side of the foot facing forward, and so the color change from Varsity Gold to Cornflower Blue lines up with the bottom of the Body. Stitch along the top edge of the Leg and then continue to stitch down the side, across the bottom of the Cornflower Blue section and back up the other side.

6. Stitch the point of the Tail to the center back of the Body, so it lines up with the tops of the Legs, leaving the rest of the Tail unattached.

7. Cut a great deal of 4 in. strands of Cornflower Blue yarn. Attach them using a Lark's Head knot. (When attaching the strands be sure that your hook is always pointed to the bottom of the Body when first inserted. This will ensure that the knot is hidden.)

Head: Attach strands along the same rnd as the top of the Beak, starting at the side and continuing around the back of the Head to the other side.

Collar: Attach 2 strands at once to give a fuller look. Attach them in a straight line around the neck, 2 rnds down from the bottom of the Lower Lip.

Wings: Attach 2 strands at once on the wings as well. Attach the strands to the outside of the Wings, and staggered to give a patchy look that will resemble ruffled feathers when finished.

8. Use pet brush to brush out all of the strands until they are completely fuzzy and then trim to desired length.

Head: Trim to about 1 in. long and brush them straight down.

Collar: Trim to about 1-1.25 in. long and brush straight down.

Wings: Trim each segment to about .5 in. long and brush straight down.

Pepé the King Prawn!

Pepé is a schemer, a charmer, and an unrelenting opportunist. (He is not a shrimp! Never say that word!) Born off the coast of Spain, Pepé discovered that show business was a good way to avoid becoming part of a seafood buffet. He also learned that show business is a great way to

make the monies. Pepé likes being part of The Muppets, and has endless ideas for making them more “successful.” Fortunately, Kermit (whom Pepé calls “Karmin”) is too smart to go along with many of Pepé’s schemes. It doesn’t stop this hot and spicy prawn from trying, okay?

FUN FACT Pepé is one of the most renowned dancers at The Muppets Theatre, showcasing his abilities in everything from ballet to samba.

Mahna Mahna and the Snowths!

Not much is known about this musical trio, but they took the world by storm on the very first episode of *The Muppet Show* with their iconic song. Mahna Mahna sings lead vocals, consisting mostly of his own name and some improvised scatting. The pink Snowths are synchronized in their harmonious doo-dooos. We may not know what it means or why they sing it, but it sure is catchy.

FUN FACT Mahna Mahna.

Use the Medium Rose tail to stitch the back of the Eyelid to the Head, around the Eye, weave in the ends.
- 3.** Stuff and attach the Horns to the back of the Head, in line with the center of the magic ring, and the curve of the Horns pointing up.
- 4.** Stuff the Body and attach it to the base of the Head.

The Swedish Chef!

Whether wielding a mallet or clutching a cleaver, the Swedish Chef is a master of mayhem in the

kitchen. Chef may not make great meals, but he wages a never-ending battle with the fruits, vegetables, cheeses, lobsters, and other assorted Muppet foods. He is a blur of motion in the kitchen, where he chops, pounds, clobbers, and otherwise tries to subdue his always uncooperative ingredients. Chef speaks a dialect known as Møck Swedish. No one is absolutely sure what he's saying.

FUN FACT The Swedish Chef serves meatballs with a tennis racquet.

Side 1: Sc 7 (which should bring you to the widest point of the Apron. If you come up short or have gone too far, adjust the number of st so you end up at the corner). Ch 25, starting in the second ch from the hook, sl st 24, sc 11 down the side, (sc, ch 1, sc) in the bottom corner

Bottom: Continue along the bottom of the Apron, sc 17, (sc, ch 1, sc) in the other bottom corner

Side 2: Continue up the other side of the Apron, sc 11 (or however many st it takes to get you to the corner where it begins to narrow). Ch 25, starting in the second ch from the hook, sl st 24, sc 7 back to the top corner of the Apron

Top: Sc 20 in the back bumps of the chain that goes around the back of the neck.

Fasten off the yarn and weave in the ends.

ASSEMBLY

1. Stitch the Nose to the center of the face, spanning rnds 7-11, with the point facing up. When you have stitched part of the Nose down, add a little stuffing to the bottom portion of the Nose, then finish attaching it.

2. Stitch the bottom edge of the Lower Lip 3 rnds up from the color change at the neck.

3. *Chef's left Ear:* join Cream yarn to the side of the Head, between rnds 12 and 13, dc 3 in the same space 2 rnds up, sl st 1 rnd up. Fasten off the yarn and weave in the ends.

Chef's right Ear: join Cream yarn to the side of the Head, between rnds 9 and 10, dc 3 in the same space 2 rnds down, sl st 1 rnd down. Fasten off the yarn and weave in the ends.

4. Grab the Bow Tie and weave in the shorter tail, weave the longer tail to the center of the Bow Tie. Make a vertical stitch 2 rnds tall at the top center of the shirt, catching the middle of the Tie. Make multiple passes in the same direction to build up the “knot” of the Bow Tie.

5. Attach the top of the Legs to the bottom of the Body so that they meet in the center; make sure the feet are facing forward.

6. With the Apron in front, tie the Apron strings in the back.

7. Without stuffing, attach the base of the Chef's Hat to the top of the Head. Play around with the top portion of the hat until it looks how you would like it to.

8. Cut a large number of strands of Toffee around 3 in. long. Using a Lark's Head Knot attach the strands to the Head. Attach 2 strands at once to give a fuller look. (When attaching the strands be sure that your hook is always pointed to the bottom of the body when first inserted. This will ensure that the knot is hidden.)

Hair: Attach a straight line of strands at the base of Chef's Hat, starting and ending just behind the Ears.

Eyebrows: Attach 4 groups of 2 strands per eyebrow, with one st in between. The sides of the eyebrows nearest to the Nose should touch the base of the Chef's Hat, and curve down the face as they move away from the Nose.

Mustache: Attach the strands in a straight line directly below the Nose, typically around 9 groups of 2 strands.

9. Use a pet brush or comb to brush out all of the strands. For the hair, less brushing is better, to keep some of the natural waves of the yarn fiber. You can always brush more, but you can't brush less. After you've achieved your desired texture, trim the hair to suit your taste.

Hair: Around .5-.75 in. long

Eyebrows: Around .25-.5 in. long

Mustache: Around .5 in. toward the center, but gradually getting longer as you move away from the Nose, around .75 in. at the longest.

TIPS, TRICKS, AND TECHNIQUES FOR CREATING YOUR MUPPET

GET THE LOOK: CHOOSING YOUR HOOK

Most of the patterns in this book were made using a US F-5/3.75 mm or US G-6/4.00 mm hook; however, you may need to adjust which size hook you choose depending on factors like your choice of yarn and the tension with which you crochet. I always recommend working up a sample swatch when trying new yarn to see which hook you should use.

Your hook should be able to slide easily into the next stitch without too much resistance. If your stitches are too tight it may mean that you are using a hook that is too small, and you may want to go up a hook size. On the other hand, if there are large gaps in between stitches, you may be using a hook that is too large and you may want to go down a hook size.

US	METRIC
B-1	2.25 mm
C-2	2.75 mm
D-3	3.25 mm
E-4	3.50 mm
F-5	3.75 mm
G-6	4.00 mm

H-8	5.00 mm
I-9	5.50 mm
J-10	6.00 mm

YOU'VE GOT ME IN STITCHES! TIPS FOR SEWING

While many of the patterns in this book have elements that can be crocheted together, they all require a fair bit of sewing as well. Sewing crochet pieces together can be tricky and can have a massive impact on the final result, so it's important to set yourself up for success.

For smaller pieces, use U-pins to hold the piece in place while you sew. Larger pieces can be held in place by hand or with a long, thin knitting needle.

When sewing, try to insert your tapestry needle into the spaces between stitches rather than through the center. This will give a much cleaner finish.

STUFFING: IT'S SO FULL-FILLING

For most pieces, I recommend stuffing them as fully as you can without having the filling show through between the stitches. Polyester stuffing has a tendency to settle over time, and stuffing firmly will keep your Muppets from looking deflated later on. Stuffing will also play a large role in the final shape of your piece, so here are a few tips to help your Muppets look their best:

Tear the stuffing into smaller pieces rather than trying to stuff a big piece in all at once. This will help keep it from looking clumpy.

Make sure the stuffing reaches into all of the corners and edges, so the piece will maintain the correct shape.

For smaller or narrower pieces, use the back end of your crochet hook or a chopstick to push small amounts of stuffing where they need to go.

Many of The Muppets have open mouths so their heads may be a bit tricky to stuff. You want to add enough stuffing above and below the mouth on the inside of the head so the head will maintain its shape but not so much stuffing that the mouth bulges out. It may be helpful to hold the Muppet's head as if it is biting your finger while you stuff. This makes sure that you aren't over-stuffing.

TO SEW OR NOT TO SEW? CROCHETING PIECES TOGETHER

Many of the patterns in this book involve crocheting pieces together: mouths get crocheted onto heads, arms get attached, etc. If necessary, the pattern will give specific information as to how to line up these pieces. Typically, the pieces will either be held with the wrong sides (insides) together or the right sides (outsides) together. If it's a piece like an arm, it may be directional like "thumbs facing toward the front of the body." Be sure to crochet the pieces in the correct order so that you'll be able to attach them at the appropriate time.

THINGS ARE GETTING FUZZY: BRUSHING OUT YOUR YARN

Some of The Muppets in this book, like Sam Eagle and Beaker, will need to be a bit fluffy in areas. This is achieved by brushing the fibers of the yarn back to its fuzzy roots. The easiest way to do this is by using a pet slicker brush (one with many thin wire bristles). All of the yarn that will be brushed out has been attached using a Lark's Head knot. If using standard worsted weight yarn, it will most likely be plied, meaning that the yarn is composed of several strands twisted together. I find it easier to separate each strand of yarn into its individual plies before brushing, to get the smoothest result.

HEARTFELT FELT DETAILS

Felt is a wonderful addition to many amigurumi pieces. It can be used to make details that would be too bulky if they were made out of yarn. I recommend getting sheets of craft felt from your local craft supply store, in the colors you'll need. I like to cut all my felt details by hand, before either using a hot glue gun to attach them, or if I'm feeling extra tedious, I will use an embroidery needle and embroidery floss to sew them in place.

GLOSSARY OF STITCHES AND TECHNIQUES

SLIP KNOT

Make a loop with the yarn. Insert your index finger and thumb through the loop and grab the working yarn (connected to the skein) and pull it through the loop, holding on to the tail. Pull until a knot is formed, insert your hook through the new loop and pull the working yarn to tighten the knot.

CHAIN

With a slip knot on your hook, yarn over and pull up a loop through the slip knot. Yarn over and pull up a loop through the loop on your hook. Repeat these steps as many times as the pattern calls for.

BACK BUMP OF CHAIN

A chain consists of two loops in the front and a small bump on the back. Typically, when working into the chain you will work through one of the loops on the front side, but for certain pieces in this book, you will want to work through the small bump on the back of the chain instead.

MAGIC RING

Make a loop with the yarn, leaving a tail around 4 in. long. Insert your hook into the loop and while holding the loop steady, pull the working yarn through. Keep the working yarn loose while using your hook to grab the working yarn on the other side of the loop and pull it through the loop on your hook. Single crochet into the ring by inserting your hook through the large loop, yarn over and pull the working yarn through, yarn over and pull through both loops on the hook. Single crochet the number of stitches the pattern calls for into the magic ring and then pull the tail tight to close the ring. (If you do not like this method, you can also chain 2 and work the number of single crochet the pattern calls for into the second chain from the hook.)

SINGLE CROCHET

Insert your hook through both loops of the next stitch, yarn over and pull the working yarn through the stitch (2 loops on the hook),

yarn over and pull the working yarn through both loops on the hook.

HALF DOUBLE CROCHET

Yarn over, insert your hook through both loops of the next stitch, yarn over and pull the working yarn through the stitch (3 loops on the hook), yarn over and pull the working yarn through all 3 loops on the hook.

DOUBLE CROCHET

Yarn over, insert your hook through both loops of the next stitch, yarn over and pull the working yarn through the stitch (3 loops on the hook), yarn over and pull the working yarn through the first 2 loops on the hook (2 loops on the hook), yarn over and pull the working yarn through both loops on the hook.

SLIP STITCH

Insert your hook through both loops of the next stitch, yarn over and pull the working yarn through the stitch and through the loop on the hook.

BACK LOOP ONLY

Work in the back loop of the stitch only: the loop that is furthest from you.

FRONT LOOP ONLY

Work in the front loop of the stitch only: the loop that is closest to you.

PICOT

There are many ways to make a picot. For this book they are worked as follows:

1. Chain 3
2. Single crochet into the back bump of the third chain from the hook

POPCORN STITCH

The popcorn stitch is traditionally made with 5 double crochet in the same stitch, then the hook is removed from the working loop, inserted through both loops of the first double crochet made and back through the working loop, the working loop is then pulled through the first double crochet made to form a small bump. The

patterns in this book use variations of the popcorn stitch with different numbers of double crochet worked into the same stitch.

INCREASE

Make 2 single crochet in the same stitch to increase the number of stitches by 1.

HALF DOUBLE CROCHET INCREASE

Make 2 half double crochet in the same stitch to increase the number of stitches by 1.

INVISIBLE DECREASE

Insert hook through the front loops of the next 2 stitches, yarn over and pull the working yarn through both front loops (2 loops on the hook), yarn over and pull the working yarn through both loops on the hook (crocheting 2 stitches together to decrease the number of stitches by 1).

SINGLE CROCHET 2 STITCHES TOGETHER (SC2TOG)

Insert hook through both loops of the next stitch, yarn over and pull the working yarn through the stitch (2 loops on the hook), insert hook through both loops of the following stitch, yarn over and pull the working yarn through the stitch (3 loops on the hook), yarn over and pull the working yarn through all 3 loops on the hook (crocheting 2 stitches together to decrease the number of stitches by 1).

LARK'S HEAD KNOT

Used to attach short strands of yarn to a finished piece. Insert your hook in and out under the desired stitch on your piece, use the hook to grab the middle of the strand of yarn and pull up a small loop (leaving 2 short yarn tails on the other side of the stitch), use the hook to pull the 2 short yarn tails through the small loop. Pull the yarn tails to tighten the Lark's Head knot.

COLOR CHANGE

Color changes occur on the last stitch before the desired color will be used. Work the stitch in the old color until 2 loops remain on the hook, then use your hook to pull a loop of the new color through both loops. Tie the tail of the new color to the working yarn of the old color and cut the old color. If the color change occurs on the inside of a piece that will be stuffed there is no need to weave in

the ends. If the color change occurs on a piece where the wrong side will be visible (Scooter's Jacket for example) then weave in the ends securely.

RIGHT SIDE

When crocheting in the round, the right side is the outside of your project. If you are right-handed, you will be working counterclockwise, if you are left-handed, you will be working clockwise.

WRONG SIDE

When crocheting in the round, the wrong side is the inside of your project. You will know if you are working with the wrong side out if you are right-handed and you are working clockwise, or if you are left-handed and you are working counterclockwise. The patterns in this book are all written with the right side facing out; if you are working with the wrong side out, you will want to turn the piece so that it is right side out.

WEAVING IN ENDS

For pieces that are stuffed, you'll simply have to use your hook to pull the ends to the inside of the piece. For pieces that are not stuffed, you will need to use your tapestry needle to work the ends back and forth through the nearby stitches to secure them in place before trimming them.

ABOUT THE MUPPETS STUDIO

The Muppets are unlikely friends rising up against all odds to realize their dream: making the world a whole lot happier and a little bit weirder. From their humble beginnings on *The Muppet Show*, Kermit the Frog, Miss Piggy, Fozzie Bear, Gonzo, and the rest of the gang soared to “super-Muppetdom” in films such as *The Muppet Movie*, *Muppets Take Manhattan*, and *The Muppet Christmas Carol*. But they wanted to do even more! At The Muppets Studio, we share their dreams of singing, dancing, and making people happy, so we got Kermit and the gang on the phone and got busy creating all kinds of wonderful and weird content. (Wonderful and weird content just like the crochet book you’re now holding!) The Muppets Studio is behind award-winning projects like the feature film *The Muppets*, the Halloween special *Muppets Haunted Mansion*, and the rockin’ series *The Muppets Mayhem* for Disney+. A proud part of The Walt Disney Company, it’s an honor for us to carry on the creative legacy of these beloved characters. There’s no telling where The Muppets will go next, but thanks to Muppet Labs, Bunsen and Beaker have us prepared for any scientific probability... or improbability!

At seventeen, Drew picked up a crochet hook for the first time and is now rarely seen without one. After years of crocheting as a hobby, he decided to take things to the next level and opened Drewbie's Zoo to sell finished amigurumi as well as offer both free and premium patterns.

Drew has found a wonderful home in the fiber arts community on social media, and loves sharing thoughtful, silly, and lighthearted content. He designs patterns for all sorts of amigurumi that range from easy to challenging. In 2022, he released his first book of patterns, *Crochet Magical Creatures*, which features many adorably enchanting and beginner-friendly designs.

A graduate from the University of Michigan with a BFA in Theatre Design & Production, Drew has worked as a costume designer and has found ways to sneak his fiber crafts into most productions. These days he spends his time in his craft dungeon, experimenting with new patterns. When he's not working, Drew enjoys playing with his golden retriever Billy and eating delicious vegan food.
