Beyond Comparison!

A Journey Through Namibia: Another Testimony to the Toughness of the Mobi Lodge.

"Greetings from beautiful Namibia. I just wanted to share my deep respect for the Mobi Lodge after our recent trip. We spent 20 days in the Kgalagadi, and when we left the park, we drove 350 Kilometres on a gravel road - dusty and demanding all the way to Mariental. When we arrived and opened the caravan, I was genuinely impressed: not a trace of dust inside. Not even a hint of it. Everything was exactly as we had packed it.

The next morning, we continued our journey to Solitaire - another 250 kilometres in convoy. We made a quick stop for some local apple tart before heading toward Sesriem. That night, we camped about 45 kilometres outside Solitaire in the open veld. Let me tell you - I have never driven on a road that rough in my life. It was relentless. The shaking and jolting were unbelievable. At one point I thought, "If there's anything inside that Mobi Lodge that isn't properly secured, we'll find it broken." But when we arrived and opened up - once again, nothing. No dust. No damage. Nothing out of place. That's when I truly gained respect for the Mobi Lodge."

It's built tough, and it protects everything inside, no matter how challenging the road.

'n Mens kyk altyd na die spyskaart voor jy bestel. Selfs al eet jy by jou gunstelingrestaurant met daai gereg wat jy altyd eet. Wie weet, dalk is daar iets anders om te oorweeg? Dalk is daardie gereg waarop jy so versot is nie beskikbaar nie, of – die beste van als – dalk is daar 'n nuwe gereg wat jou oog tref. Hierdie *Koopgids* is 'n spyskaart vir die plaaslike woonwabedryf, waar jy uit 305* verskillende modelle kan kies. Dit is 23 meer as verlede jaar se aanbod, met 'n verstommende 47 nuwe modelle wat in die laaste 12 maande die lig gesien het. Trouens, oor die afgelope drie jaar het die verskeidenheid modelle met meer as 20% gegroei. Buiten vir die nuutste foto's, sluit die gids ook al die basiese inligting soos mates, gewigte, boumateriale en pryse in. Die mates hier verwys na die grootte van die onopgeslaande wa. Dis dus hoe lank, breed en hoog hy is wanneer jy sleep en ook die grootte wat jy in ag moet neem as jy dit in jou motorhuis wil bêre. Die pryse** in die gids geld vir daardie spesifieke woonwamodel se standaardweergawe en sluit BTW in. Onthou, vervaardigers se standaardmodelle word nie dieselfde toegerus nie en die prys wat ons aandui dien bloot as riglyn.

Die spyskaart is dus op die tafel, nou met jy net besluit tussen 'n enkel- of dubbel(as)!

A five-course feast

You always check the menu before you order. Even when you're at your favourite restaurant, eyeing that dish you always have. Who knows, maybe there's something else to tempt you? Maybe your usual choice isn't available, or – best of all – there's a brand-new dish that catches your eye. This *Buyers' Guide* is the menu for the local caravan industry, offering 305* different models to choose from. That's 23 more than last year's line-up, with an impressive 47 new models introduced over the past 12 months. In fact, over the past three years, the variety of models has grown by more than 20%. Along with the latest photos, the guide also includes all the basics such as dimensions, weights, construction materials and prices. The dimensions listed here refer to the size of the caravan when it's closed – in other words, its length, width and height while you're towing, and also the size you'll need to consider if you plan to store it in your garage. The prices** shown are for the standard version of that specific model and include VAT. Keep in mind that manufacturers don't all equip their standard models the same way, so the price is only a guideline.

The menu's on the table – now it's up to you to decide between a single or double (axle)!

IKOONSLEUTEL / LEGEND

Die rybewys wat jy moet hê om die wa te sleep. Kode B is 'n gewone rybewys en jy mag 'n wa met 'n BVM van hoogstens 750 kg sleep. Kode EB is 'n sleeprybewys vir swaarder waens.

The driver's licence needed to tow. Code B is a standard licence, and you may tow a caravan with a GVM up to 750 kg. Code EB is a towing licence for heavier caravans.

Pas die wa in 'n standaardmotorhuis? Motorhuise verskil – veral die hoogte van die deuropening. Ons gebruik dus 'n maksimumhoogte van 2,1 m, 'n breedte van 2,4 m en 'n lengte van 6 m.

Does the caravan fit into a standard garage? Garages differ, especially the height of the door opening. We confine the measurement to a maximum height of 2,1 m, a width of 2,4 m and up to 6 m in length.

Die padtoestande waarvoor die woonwa gebou is.

The road conditions for which the caravan is built.

Die minimum-tarragewig van die sleepvoertuig. (Vir 'n ongeremde wa met 'n BVM van 750 kg of minder moet die sleepvoertuig se tarra dubbel die BVM van die wa wees.)

The minimum tare weight of the towing vehicle. (For an unbraked caravan with a GVM of 750 kg or less, the tare of the towing vehicle must be twice the GVM of the caravan.)
