Vanjaar is 'n hoogtepunt om verskeie redes: Die gids bars uit sy nate met 80 vervaardigers en 347 modelle* wat 71 nuwe waens insluit.

Die gids is ook vanjaar vyf jaar oud. Die eerste uitgawe in 2022 het 250 wa-modelle van 59 vervaardigers ingesluit, en oor die daaropvolgende drie jaar het die vervaardigers tot 72 gegroei en die verskeidenheid waens tot 305. Gedurende hierdie drie jaar het 'n gemiddeld van 45 nuwe modelle elke jaar bygekom, wat op sigself 'n gesonde woonwamark weerspieël. (Hier en daar het 'n woonwavervaardiger die bedryf vaarwel geroep, maar hulle is reeds in die bogenoemde syfers verwerk.)

Die gids het ten doel om kopers 'n volle oorsig te gee van watter nuwe waens beskikbaar is in die land. Dis 'n breë en volledige oorsig, en nêrens anders kry jy al die keuses op een plek nie: van die kleinste en goedkoopste tot en met die paleise met 'n plaas se prys.

Alle pryse** geld vir die spesifieke vervaardiger se standaard weergawe van 'n model – met ander woorde, die “vanaf”-prys. Moet ook nie op sigwaarde verskillende vervaardigers se pryse vergelyk nie. Die een se standaardwa is omtrent net 'n dop en wiele, terwyl 'n ander s'n kampgereed en volledig toegerus is.

Skakel dus die vervaardiger of naaste handelaar om te hoor watter toerusting ingesluit is, en maak seker jou nuwe wa se eerste staanplek is reeds bespreek! Ons sien mekaar iewers in die kampplek.

By the dozen

This year is a highlight for several reasons: The guide is bursting at the seams with 80 manufacturers and 347 models*, including 71 new caravans.

The guide is also five years old this year. The first edition in 2022 included 250 caravan models from 59 manufacturers, and over the following three years the manufacturers grew to 72 and the variety of caravans to 305.

During this time, an average of 45 new models were added each year, which in itself reflects a healthy caravan market. (Occasionally, a caravan manufacturer said goodbye to the industry, but they have already been factored into the above figures.)

The guide aims to give buyers a full overview of what new caravans are available in South Africa. It is a broad and complete overview, and nowhere else will you find all the choices in one place: from the smallest and cheapest to the mobile palaces with a hefty price tag.

All prices** are for the specific manufacturer's standard version of a model – in other words, the “starting from” price. Also, don't compare different manufacturers' prices at face value. One's standard caravan is pretty much just a shell on wheels, while another's is camp-ready and fully equipped.

Therefore, call the manufacturer or nearest dealer to find out what equipment is included, and make sure your new caravan's first stand is already booked!

We'll see you somewhere in a campsite.

IKOONSLEUTEL / LEGEND

Die rybewys wat jy moet hê om die wa te sleep. Kode B is 'n gewone rybewys en jy mag 'n wa met 'n BVM van hoogstens 750 kg sleep. Kode EB is 'n sleeprybewys vir swaarder waens.

The driver's licence needed to tow. Code B is a standard licence, and you may tow a caravan with a GVM up to 750 kg. Code EB is a towing licence for heavier caravans.

Pas die wa in 'n standaardmotorhuis? Motorhuise verskil – veral die hoogte van die deuropening. Ons gebruik dus 'n maksimumhoogte van 2,1 m, 'n breedte van 2,4 m en 'n lengte van 6 m.

Does the caravan fit into a standard garage? Garages differ, especially the height of the door opening. We confine the measurement to a maximum height of 2,1 m, a width of 2,4 m and up to 6 m in length.

Die padtoestande waarvoor die woonwa gebou is.

The road conditions for which the caravan is built.

Die minimum-tarragewig van die sleepvoertuig. (Vir 'n ongeremde wa met 'n BVM van 750 kg of minder moet die sleepvoertuig se tarra dubbel die BVM van die wa wees.)

The minimum tare weight of the towing vehicle. (For an unbraked caravan with a GVM of 750 kg or less, the tare of the towing vehicle must be twice the GVM of the caravan.)

KLIPSPRINGER

Built for the Wild: Where Craftsmanship Meets Capability

There's a difference between a caravan that travels, and one that belongs in the wild.

The Stealth Kudu, Klipspringer, and Springbok, is engineered with a clear purpose: to take on South Africa's toughest terrain without compromise. From the first glance, their bold, rugged design signals intent. But it's in the detail where they truly set themselves apart. Precision craftsmanship, premium materials, and a design philosophy rooted in durability ensure that each unit is more than just a caravan, it's a reliable companion built for life beyond the tar.

Three Icons, One Standard: Kudu, Klipspringer & Springbok

Each model in the Stealth lineup carries its own personality while upholding the same uncompromising standard. The Kudu stands as the flagship, powerful, spacious, and designed for extended off-grid adventures.

The Klipspringer, nimble and versatile, is built for those who chase remote destinations where agility matters most.

Meanwhile, the Springbok strikes the perfect balance, offering comfort and capability in equal measure.

Despite their differences, all three share a DNA of strength, innovation, and meticulous attention to detail, a testament to a brand that refuses to cut corners.

Stealth: Built tough with next-level craftsmanship, designed to endure the harshest terrain and take you further, every time.

The Ultimate Test: Joburg to Cape Town via Tankwa

A true measure of any off-road caravan lies in the journey, not the showroom. Recently, the Stealth trio took on the demanding route from Johannesburg to Cape Town via Tankwa, a stretch known for its unforgiving conditions, relentless dust, and rugged terrain. It was here, far from comfort and convenience, that their engineering proved its worth. The caravans handled the challenge with confidence, absorbing the punishment while maintaining comfort and stability. This wasn't just a trip; it was a statement. A demonstration that when design, durability, and craftsmanship come together, the result is something exceptional, a caravan range that doesn't just endure the wild, but thrives in it.

With Stealth, comfort that follows you isn't just a slogan, it's the promise behind every km.
